

“A Worldwide Pandemic” Luke 19:28-44; Jeremiah 17:5-8

We live in the Church Age, a dispensation of ordinary believers; a time when God has provided more for us than He did for the greatest heroes of the Old Testament.

We have something far beyond any value man can measure.

Everyone wants this plague of Covid-19 to go away for good but a change in human environment will not help our underlying condition.

When your expectation is from the Lord, you’re never disappointed.

The greatest tragedy during this time in which we face the Covid-19 virus is when born-again believers do not have biblical truth in their souls or God’s problem-solving devices at their disposal and therefore, don’t understand God’s plan for their lives.
